

HALE-BOPP COMET

1997 04 04 Friday Father Malachi Martin Exorcism

AB: "Father, many, many people want me to ask you about this."

FMM: "Umm-hmm."

AB: "In ... in your previous appearance on this program ..."

FMM: "Yes?"

AB: "... and everybody would like words from you on ... on this."

FMM: "Well ..."

AB: "Ah, there have as you know been signs. We've got, ah, an incredible comet crossing ..."

FMM: "I know!"

AB: "... our skys."

FMM: "I know ... with ... with accompanying human events that are ... that are tearing our souls really in one sense."

AB: "Yes!"

FMM: "Because the whole Heaven's Gate thing is something that, ah, it seals itself into our modern minds whether we like it or not."

AB: "Yes."

FMM: "And they ... it has provoked ... and the usual sign of that for us, Art, in America is the feeding frenzy of the media. (FMM laughs). They've been on this and they're still on it."

AB: "Yes, I know ... I know. Believe me, I know."

FMM: "It ... it is, and there's no doubt about it – *a significant event*."

Here's what I said before and what I think still – and this I give out as my personal interpretation of the human events of our day – is this:

That if between the end of winter – which is now the end I think – and the end of this spring which is in May – roughly and approximately – there is a

... a great abnormal sign in our human skies, it's not merely the comets, which is a marvelous thing, there's no doubt about it, um, but something really, truly abnormal that makes the whole world stop for an instant.

Or along with another instance, then in that case if anybody has any faith, then take it out of his pocket and polish it up.

They will need it, because there is coming shortly after that ... if that takes place, there is coming shortly after that a series of events that will try us! Not merely floods. Not merely earthquakes. Not merely diseases. But something worse than that.

If nothing happens – if it's just the comet and the Heaven's Gate, ah, event – and that's our business, then okay, there's ... there's no immediate pressure of event. That's my interpretation of it.

So that's why I say keep your eyes on the skies, because it will be visible.”

AB: “There would be then no mistaking the sign?”

FMM: “No mistaking whatever. You won't miss it or begin to believe in God on account. You won't necessarily go or run to the nearest church or temple or ... or mosque. Ah, you won't automatically make up with your enemies. Having been their enemy for a long time, you won't make restitution for your sins. So not necessarily that.

But you will know that a power which exceeds all other power is speaking to you directly.”

AB: “Would this be an event, Father, that scientists would be able to explain for the spiritually nervous?”

FMM: “Yes.”

AB: “Ah, explain away ...”

FMM: “Yes.”

AB: “... as they would say: ‘Well, ah ...’”

FMM: “Yes, yes, they will.”

* * *

Aud: “Ah, since ... before we leave the topic, Art, if you can get on the subject of the mass suicide in California, please ask Malachi about the Greenbaum experiments. He mentioned them briefly the last time he was on your

program and there might be some similarities that would be interesting to the listeners.”

FMM: “Hah! Whoever wrote that ... it’s not the first time they’ve talked about this subject, and they know I think much more than they’re putting in those simple lines.

Um, there is a programming system, Art, to put it very briefly, developed since the Second World War based on the experiment Nazi doctors carried out Hitler’s command to achieve total mind control. There is now in vogue a system of programming, and it ... it is I was going to say devilish in its efficiency. Eh, it is ... it is almost unbreakable. It is so unbreakable that, ah, when you’re so programmed, one of your programs – cause you have a whole list of programs corresponding to the letters of the Greek alphabet (Alpha, Beta, Gamma, Delta down to Omega) – one of the programs is a program to prevent you being ... to be deprogrammed.

Do you understand what I’m saying?”

AB: “Ah, yes I do!”

FMM: “*It’s devilish (!)* So that ... but there is ... there are psychiatrists – one (1) of them in particular – who have studied how to deprogram the actual anti-programming program.

I know it gets complicated at this stage, and this programming makes of the person really what we now know as ‘*The Manchurian Candidate*,’ if ... if you remember that book?”

AB: “Clearly.”

FMM: “Because it’s ... it’s based on fact – it’s not a myth.

In other words ... I mean I’ve had ... I’ve had somebody sit in my consulting room and say to me: ‘Father, um, if that phone rings now and the voice mentions two (2) words – and they wrote the words down for me – then I will go and do what I’m told to do, according to my programming, because I have been programmed.’ And they were programmed at the age of two (2), they were reinforced and programmed at the age of seven (7) and fourteen (14), and finally they ... the child programming was achieved at the age of twenty-one (21) ... age twenty-one (21). And there are literally hundreds, probably thousands, who have been programmed.”

AB: “And that’s the reference to the Greenbaum experiments?”

FMM: “That’s right.”

* * *

AB: “Ah, do you have any comment on that whole Heaven’s Gate business?”

FMM: “The general comment I have is that, ah, it really Art, you know in my opinion, it was a *Christian heresy (!)*

It’s a ... it was a distortion of Christianity. The day ... the timing was made coincide ... made to coincide with the Resurrection central feast day of Christianity.”

AB: “Umm-hmm.”

FMM: “Um, they denied completely the, ah, normal Christian teaching about the body and the soul.”

AB: “Yes.”

FMM: “Ahh, and they also took refuge in mythical things

But I ... have the impression that it’s a Christian heresy really – a deviation from Christianity of a very violent kind.”

AB: “Yesss!”
