

1992 12 12 Saturday John Lear UFOs

JOHN LEAR

– son of William Lear, designer of the Lear Jet

– acquainted with Bob Lazar

JL: Accidentally got into UFOs in 1985.

Used to believe there are 80 species visiting us ... there's probably more.

We are an experiment ... we've been genetically experimented with.

Aliens refer to us as "containers."

* * *

JL: Per documents read by Bob Lazar – "Aliens engineered the world's major religions." They did this "in an effort to organize and pacify." ... "They created the miracles so we would believe in an entity! ...

They gave us the Ten Commandments to live by." ...

AB: (interrupting) "They are our Creators ...?"

JL: "Supposedly, yeah."

AB: "Is that one of those things you're certain about or does that hang more in the air more as a theory, John?"

JL: "It's looking more and more correct. ... Who knows what the truth is?"

* * *

AB: "Why is there so much dissension among ufologists?"

JL: "Everybody has an axe to grind."

* * *

AB: "People want to mix in the religious aspect with UFOs which makes it tough to talk about – and gets a lot of people angry – and this is exactly why the government won't release information."

JL: "Exactly."

* * *

AB: "Then our ancestors are some other sort of space creatures?"

JL: "Well, whatever was here, it is my understanding, they genetically altered ..."

* * *

JL: Believes in reincarnation – "was something Jesus taught." Also claims that 95% of the King James Bible has been removed.

* * *

AB: "What use would aliens have for the human soul?"

JL: "I don't know."

* * *

JL: "Apparently. At least according to the abductees, the Grays don't understand it – they don't have emotions themselves ... at least like we do, and they're trying to understand them as we feel them."

* * *

JL: Has read Zecharia Sitchin's books and believes he has some real good ideas. Recommended reading.

* * *

JL: Believes AIDS was manufactured by the USA and intentionally released first in Africa, later in the U.S.

* * *

JL: Billy Meier, George Adamski, Howard Menger – "When I started looking into this, [I found]: "All those guys were telling the truth!"

"Billy Meier's photos looked real – yes, I believe Billy Meier's case is a true case."

* * *

JL: "I'm not a scientist like Bob [Lazar] ... All I deal in is speculation."

* * *

AB: "What about astrology?"

JL: "Who knows, maybe there is [something to it] ..."

* * *

JL: Not inclined to believe the Philadelphia Experiment or the Montauk Project.

JL: Also references NASA's "Extra-Terrestrial Exposure Law," 14 C.F.R. § 1211, and in effect from 1969 to 1977 (when revoked). In 1991, the law section was removed from the Code of Federal Regulations (C.F.R.) in its entirety.

Note: Last hour of Art's broadcast interview with JL ended prematurely.

1993 09 03 Friday John Lear UFOs

JL: Has flown over 160 different types of aircraft in over 50 different countries. Has held 18 world airspeed records. Commercial pilot for 30 years, including government air missions.

AB: The craft did not make a sound.

JL: Believes it may have been an A12 Avenger – there were 10-13 built before production contract cancelled. An "extremely quiet" craft. An ET would have likely put out AB's engine and headlights. The one exception to a conventional aircraft description is the "floating." Planes do not float.

AB: My first guess was "military secret aircraft." The craft was dark black, and the sky was lighter because it was nearly a full moon.

* * *

AB: Per George Knapp – the fear associated with investigating the mob is nothing compared to the fear associated with investigating UFOs. ... "That's quite a statement to make."

* * *

JL: Bob Lazar's paychecks came from the Department of Naval Intelligence.

* * *

JL: "What leads to that shutdown [about talking about UFOs] is that it's so overwhelming – the truth of it all – the hugeness of it, the reality of it, when it hits you that it's all so real ... sometimes you can't handle it."

* * *

JL: The people who run [Top Secret projects] have a tremendous disdain for elected and appointed officials ... [including the President!]

* * *

JL: Believes in MJ-12.

Also claims Mars Observer did not really fail. Instead it is operating in secret, and the public has been duped.

The Art Bell Vault has vintage, commercial-free AB audios at coasttocoastam.com/sign-up

JL: Mars Observer cover-up: “The people at JPL [Jet Propulsion Laboratory] and Houston [NASA Mission Control] honestly believe that they’re not getting information [from Mars Observer, but this is only] because they are *not* part of the subterfuge ... They cannot be part of the subterfuge so that they can give completely honest information as far as they know. The guys that you see on TV, they don’t know what’s going on, because they have to give totally believable stories to the public.”

AB: “I really did trust in the government for the most part, but it’s been a long series of disappointments.”

* * *

JL: Back Engineering – taking an advanced piece of equipment and trying to figure out how it works.

* * *

JL: Re: Verification of Bob Lazar’s story:

“When people are brought into a very secret program ... the first thing the government wants to do is to protect themselves that should these people ever want to talk and go public with this information, [the government] wants to be sure that this person will not be credible. In other words, the first thing [the government] does is wipe out all their records – wipe out all their schooling – with Bob, there’s no trace that he ever went to MIT, no trace that he ever went to Cal Tech ... but in their ingenious way of spreading this [dis]information, they left his attendance record at Northridge College [Cal. St.-Northridge] ...” which would seem to indicate that Bob Lazar was not what he claimed to be.

AB: But “Bob Lazar’s name appears on a telephone list at Los Alamos.”

JL: “Yeah, it does but his detractors say that he was just a ‘cook’ there.”

* * *

JL: Claims Bob, Jean [sic?], and himself drove up to an observation point [on BLM land] just outside of Groom Lake from where they observed an ET craft making a test flight. “There was no question it was a disk.” JL saw it for 15 to 20 seconds.

JL claims ET testing no longer occurs at S-4 because it was becoming too well-known. Two years ago the program was moved to a secret [air]strip on the border of [southern] Idaho and northern Nevada ... up near Jackpot. Base personnel relocated to Twin Falls, ID.

* * *

AB: Linda Moulton Howe is investigating crop circles and cattle mutilation in England. These are surgical, clean cuts ... "What is going on?"

JL: Not just cattle mutilation going on. Horse mutilation in Nevada. Hundreds in northern NV. Area cordoned off. Story was they were shot by hunters, but prosecution was dismissed for lack of evidence.

AB: "Any idea what motivation there would be to be taking parts of animals?"

JL: "None, none at all."

AB: "Then it is being done by the aliens."

JL: "Well, I don't think there's any question about that. We don't have the technology to make those kind of cuts, certainly not with that precision, and certainly not in the field."

JL: It's not the government, because the government would not leave mutilations lying around to invite speculation.

* * *

AB: "Why are the aliens taking [abducting] people?"

JL: "Mankind is an experiment." And the aliens are checking on their experiment.

Believes it also involves the soul. We are 'containers' of souls.

* * *

JL: None of my contacts have anything good to say about 'aliens.'

Claims we [humans] have ongoing dealings with extraterrestrials. NASA and space exploration is for public consumption.

AB: What of the suggestion that aliens need human DNA for their evolutionary needs?

JL: Cross-breeding program with humanity.

AB: A lot of fetuses simply disappear.

* * *

Aud: (Q to JL) – Why haven't *they* shut you up?

JL: Because they don't take action against people with only hearsay information. The people they go after *hard* are those in the know who break their secret clearance by talking.

Pandering charges were manufactured against Bob Lazar, for instance. However, if they did anything to John Lear, that would only give John Lear credibility.

Politicians don't speak out, because they don't have anything to gain by it.

* * *

JL: Denies the press uncovered Watergate – they were fed the information by 'Deep Throat.'

* * *

JL: Aliens travel via gravity through the fabric of space 'instantaneously.' They attract or pull space toward their craft via gravity. This is *instantaneous* travel – a matter of hours – time passage is not greatly affected.

* * *

AB: Are we ready for alien contact?

JL: Probably not. "99% [of people] aren't interested and don't want to understand. ... Therein's the rub ..."

* * *

JL: Worked for different companies that had contracts with the CIA.

AB: Are you part of a government disinformation campaign?

JL: If I am, how effective am I?

* * *

JL: Denies that he and Bob Lazar are building a time machine. Although he does believe a time machine could be built, if you had an incredible amount of power.

Very skeptical of Al Bielek's story re: the Philadelphia Experiment.

* * *

Aud: Aliens are a pro-world government disinformation campaign to bring about the demise of the nation-states and bring about "One World Government."

* * *

JL: Claims Bob Lazar had some Element 115 proponent stored away, but that government agents broke into Bob's house and took it away.

* * *

JL: There are seventy (70) different types of aliens visiting Earth.

* * *

JL: JL is aware that a young woman "set-up" John Mack. "It's just media tactics."

AB: "Too much for even me."

JL: I'm "fatalistic" about all this. "Never in my wildest dreams" expected to find out as much as I have.

AB: And 'fatalistic' is the right word – that's kind of ominous for a lot of us, of course."

* * *

JL: Believes you can go back or forward in time without limit AND if you go back in time and kill your father, "you will still be here, because time is compartmentalized."

AB: "All time is *local*. You will affect the immediate sphere or time that you commit this act in, but somehow time will bend back in on itself and everything will self-correct, and you will still be there somehow."

JL: "Whatever ..."

* * *

JL: Familiar with "Guardian" [?], but not sure if legitimate ... knows he is a "good researcher." [Made in response to an audience phone call].

* * *

AB: Do these beings themselves have a religious faith that we're aware of?"

JL: When Whitley Strieber was undergoing examination by the Grays, in terror WS cried out for 'God!,' to which the Grays responded: "Why do you cry out for your God when there's only US up here?"

* * *

Aud: "Why is all this not part of God's plan?"

AB: "Why do aliens and God have to be mutually exclusive?"

JL: "They don't." Per Bob Lazar – the Universe begins from a point and expands. Eventually it reaches a point where it can no longer expand, and so it begins to contract upon itself. It contracts back down to a point and the expansion begins again. ... "Whoever made this – that's God!"

* * *

Aud: Asks for JL to comment on Bob Lazar's "other two areas of S-4 ... about the 1) physics of time travel and 2) the charged particle beams?"

JL: Acknowledges "they have both of those things there." One time when Bob Lazar went inside a craft to work, he worked for two hours and then emerged from the craft only to find it was the same time it was as when he first entered the craft. When BL asked for an explanation, he was told that "the saucer's time shifted."

* * *

JL: "Aren't we being bred as cattle?" [by the aliens].

* * *

Aud: "Why are they interested in us?"

AB: "When you look at the earth, it's a hustle and bustle of activity and growth and beings and intelligence, and it's a contrast to everything around it, right?"

JL: "I think they created the whole thing, and that's their interest."

AB: They are "following their handiwork."

JL: "They have made sixty-five (65) separate corrections [to their experiment] and I doubt the experiment is over. ... I think that it's continuing on."

* * *

JL: Nothing will come of Congressman Schiff's investigation of Roswell, because "it's a cover-up." They're not going to let some Congressman find out anything.

* * *

JL: "Supposedly every galaxy has its Black Hole."

* * *

JL: Space is a fabric – it is not a nothing. We have to learn how to jump from one point of the fabric to another part of the fabric using the "propagation of gravity."

A wormhole is how to go from Point A to Point B without violating the speed of light.

"I don't think you can go faster than the speed of light in a linear direction – you have to do it some other way."

* * *

JL: "In fact, the soul goes on forever."

* * *

JL: "MJ-12 runs the whole [country – USA]." We are not a democracy. For those who believe that, you are sadly mistaken.

Denies being a member of the Trilateral Commission, the Council of Foreign Relations, the Masons, the CIA, the KGB, or the NSA. "No, I'm just a poor ol' airline pilot."

* * *

JL: "George Adamski reported everything exactly as it happened. He was reported [reputed] to be a hoaxer, but no, all that stuff happened to him. The photos were analyzed by friends of mine – who had very good analyzing equipment – and it was true. There was one picture of him [Adamski] looking outside of a saucer and that was true."

* * *

JL: The Roswell aliens have a bifurcated brain system – one brain on the left and one on the right side, separated by a bone. "I remember reading the 'autopsy report' – the stuff Stringfield put out."

* * *

Aud: Claims the government is performing "alien abductions" by taking people onto mock-up (theatrical) alien ships and using dwarves to examine the abductees.

JL: Agrees that this accounts for some alien abductions, but [it's] not the predominant form of abduction. Detailed by [author] Martin Cannon in his writings about government abduction.

* * *

JL: My source for the confirmation of the existence of MJ-12 is [General] Jimmy Doolittle.

* * *

2002 11 21 Thursday No Guest

Open Lines

AB: “In fact, one of my earlier interviews ... in doing all of this was John Lear, son of Bill Lear. You know ... he’s a pilot.

And one of the last shows – and he did ... Oh God! ... he did a period of a year ... year and a half of solid shows with me – a fascinating man (!), who doesn’t do these kind of shows anymore at all.

But one of the things that he told me was that we were reported as ‘vessels.’ *Human beings were regarded as vessels* – ah, nothing more than something to bear or to carry the soul (!)”

* * *
