

2001 02 14 Wednesday Dr. Linda Honor Magnetic Resonance Imaging (MRI)

DR. LINDA HONOR

– behavioral neuroscientist; university (intentionally unnamed) professor

DLH: “The MRI and the Philadelphia Experiment use similar technologies. As a result, the experiences of MRI technicians who experience transdimensional entities when in close proximity to a functional MRI is not at all surprising ...”

* * *

AB: “If you need an MRI, the benefits greatly outweigh the risks ... It may save your life.”

DLH: “As with any medical procedure, there are risks with MRIs.”
