WHITLEY STRIEBER

WS: UFO Phenomenon – undercurrent of cattle mutilations, alien abductions ... and now, crop circles.

WS: “There is something about it [crop circles] that I must say is ‘creepy.’”

AB: “The researchers who walked in the field had a terrible feeling of foreboding.”

* * *

AB: “If it’s not done by people, then it’s ‘contact.’ ... It’s a mystery like the pyramids in that we have no idea how it could be done by humans.”

BILL HAMILTON

WS: Describes Bill Hamilton (BH) as an old-line UFO researcher.

WS: We are in contact with aliens.

BH: Area 51 is a simulator for flying disks with an EBE [Extraterrestrial Biological Entity] advisor named ‘J-Rod.’

BH: “No way to authenticate a story like this.”

BH: Q-109A *document* – an EBE entity J-Rod. The document is from a lady named BJ, and is regarding a secret group within the U.S. government.

BH: Dr. Dan Burisch (aka Dr. Danny Benjamin Crain) – Project Aquarius, Papoose [Lake] Site 4 (S-4).

BH and Dr. Burisch met in a secured, private room. Burisch was very nervous in the first of three meetings with BH. Third meeting was videoed.

BH has some background documentation to authenticate himself – [admittedly] not the strongest authentication.

The BH/Dr. Burisch interviews occurred over the last six (6) months.

* * *

BH: Per report just recently received – Dr. Burisch is “no longer among the living.”

* * *

BH: Dr. Burisch worked in Site 4, Level 5 facility with J-Rod. Atmosphere was different than normal Earth atmosphere.

BH: Dr. Burisch took tissue samples from J-Rod. Burisch was a microbiologist. The alien was suffering from a ‘neuropathy,’ or neural degeneracy.

* * *

BH: Doctrine of the Convergent Timeline Paradox. J-Rod is from the Zeta Reticuli system, but is actually related to us [humanity], and is from our own future. But of course, “the future is history to J-Rod.”

BH: They [J-Rod’s kind] have learned to travel through space and time. They return back here [to Earth] in our past.

AB: “These beings are us.”

BH: Per J-Rod, he is here to help humans who have become “separated from their spiritual nature.”

WS: Same point as Dr. Leir, yet Bill Hamilton and Roger Leir have never discussed their separate stories.

BH: “Nordics (aka ‘Orion beings’) are another branch, who branched off [from humanity].

BH: Stemming from a future catastrophe [not described, but circa 2012 – the end of the Mayan calendar], the population of humanity is drastically reduced and part of the remaining population goes underground [literally].

BH: Learned from his biology studies that “when you have a smaller population that is isolated, you increase the chances for evolutionary change.”

WS: Writes fiction because “there is no other way to communicate the emotional impact that this has, except through fiction now.”

* * *

BH: Per Dr. Burisch – Humanity’s nature separates between the two:

J-Rod has a more material, logical, scientifically-grounded nature, and the Nordic has a more spiritual, high-minded nature.

LINDA MOULTON HOWE

LMH: Of two (2) J-Rods – one is housed at Los Alamos, and the other one at S-4.

LMH: J-Rod sat in conference with Edward Teller and other scientists.

AB: “My God, that’s a lot of coincidence, Linda”
