

1994 04 03 Sunday Linda Moulton Howe UFO Movie (Dreamland)

Linda Moulton Howe discusses the documentary film *UFOs: Past, Present and Future* written by Robert Emenegger.

LMH: The film details a *pre-arranged* meeting with Extraterrestrials at Holloman Air Force base near White Sands Missile Range in May of 1971.

Also has a drawing made at the time.

RE: (on tape): There were three (3) aliens in the landing party. The aliens had 'cat-eyes' with vertical pupils. RE was told the alien ship was put into a small hangar on the base.

LMH: (making a summary since audio issues with the tape):

RE uses the term 'Sumerian' to describe the aliens.

The aliens held a short rod or baton in their left hand. The rod was both a communicator and a paralyzer.

Three (3) disks came down and were met by a U.S. military party.

RE's impression was that the three (3) alien beings were scientists, and they seemed like ancient Sumerian 'gods.'

RE's documentary film was narrated by Rod Serling.

AB: "Why is he [RE] just getting around to telling this story now?"

LMH: "Because he feels that he can."

AB: "Because he feels that people are ready for it, do you think, or because something else has changed ...?"

LMH: Apparently he feels that he's been cleared by Washington to discuss it.
